## IDIOMS

**Spanish:** Native

**English:** Advanced
Certificate in English (Level C1)

**Portuguese:** Basic

## SKILLS

I am an expert in developing web pages using React.js, Node.js, HTML, NODE.JS, Express and JavaScript. In addition, I have skills to identify defects, errors and solve them efficiently. Responsive web page design with Bootstrap, SQL queries, management of MongoDb, Git and GitHub. Teamwork and individual work are areas in which I operate with calmness, confidence and patience when approaching jobs or projects.

## ABOUT ME

I am Nicolás Martin Amado, a 20-year-old from Buenos Aires, Argentina. I am actively seeking a position in the field of systems, eager to enhance my skills and knowledge to make a valuable contribution in this area. I have a knack for quickly grasping new concepts, making it easy for me to learn and apply new techniques effectively.

## EXPERIENCE

### Web developer and systems administrator
March 2020 - December 2023

Within my job responsibilities, I stand out in:
- Development and implementation of the Law Firm website: design and creation using HTML, JS, REACT, NODE and CSS.
- 100% responsive and dynamic design to facilitate the user experience and capture the greatest attention of potential clients.
- Website optimization for search engines (SEO).
- Database administration in MongoDB: design and implementation.
- Performing backups and maintenance tasks and improving database performance.
